

If Your Dog Has Fleas or Lice

We have Dog Soap and Mange cure that will kill them. We carry both Glover's and Spratt's dog remedies, a full line. If you have a short haired dog, the dog soap will kill the fleas and lice. If a long haired dog, you require the Mange cure.

Speaking of dogs, what do you feed yours? Scraps that you wouldn't eat yourself? Why not try some of Spratt's dog biscuits, 10c pound in five pound lots or over? Cheapest and best dog food made.

We have as fine an assortment of dog collars as is shown on the Pacific coast. Dog collars from 25c to \$3 each. Leashes, chains, leads, etc.

Every sack guaranteed or money refunded.

McKEE'S Cash Store

Joe Cope yesterday brought to the board of trade a sample sheaf of oats that ought to take first premium in any country. His oat crop has been raised by pumped water and of course the rains that have been prevalent this season. When up a short distance the plants were topped making them stolid more and perhaps lessening their height. But they are high enough to be binned over four feet, some of the straws nearly five. The marvelous thing about this particular specimen is that the whole sheaf came from one seed and its exploits outclass the achievements of the biblical grain of mustard seed. In the presence of the secretary of the board, Mr. Cope counted fifty stalks and then got tired. Those present estimated that they had counted about one-eighth of the entire sheaf, which is in reality one plant with approximately 400 stalks. But the immensity of this plant is not the only notable feature. It is luxuriantly headed out and the foliage is marvelous. The leaves are many of them an inch wide and abundantly thick so that if cut for hay or fodder there would seem to be twice as much stock feed as in an ordinary sheaf of the same size.

Mr. Cope is not the only man in this country that raises good oats. Many have been spoken of before and another sample left at the board of trade by F. W. Donn, was grown at his ranch three and a half miles out the Cave Creek road. His field averages about six feet high and many who have seen it say it is the finest oat field they have ever seen in any country. The leaves on these oats are narrow, not averaging more than one-half as wide as the leaves of the Cope oats. Still there is a great deal of good forage in the sheaf and the stalks are long and slender and well headed out. Individual stalks will measure nearly seven feet high.

There is another oat sample at the board of trade room that is of more than passing interest. The secretary does not know who brought it in but whoever it was said it was a bunch of wild oats that grew somewhere on the nearby desert. The specimen is six feet high and well headed out, being well supplied with foliage. It is the opinion of some that it is merely volunteer grain that has sprung from seed scattered by some camper. But if it is tame grain gone wild it has deteriorated materially in quality for the kernels are small and half formed and furthermore are protected with more heads and fuzzy or hairy growth surrounding, as though the grain was fast developing little thorns like nearly all the rest of the native Arizona desert growths. If, on the contrary, it is a native wild plant, while not to be compared with the ranch grown grain, it furnishes more abundant forage than most of the native plants found in these parts.

Arizona Lodge No. 2 F. & A. M. will confer the second degree this (Friday) evening.

S. J. DOSTER, W. M.

RARE DESERT LILY BULBS FOR SALE.

Now is the time to get the bulbs of the desert lily, the rarest, sweetest and most beautiful of Arizona wild flowers. Blossom freely under cultivation, but in the native state only appear during very wet years. This is the first time in nine years they have appeared and it may be ten to twenty more before any more can be collected, as the bulbs lie hidden and dormant under ground for years. I have a man collecting these bulbs and will send them for 25c each, six for \$1, for a short time only. Order at once if you want any.

DICK WICK HALL,
Salome, via Harrisburg, Ariz.

FOR THE LIBRARY FUND

Net Proceeds of Grammar Schools' Recent Entertainments.

Mention was made at the time, of the great success of the efforts of the grammar schools for an entertainment point of view, in their exercises for the benefit of the school library. Superintendent Cole, has now furnished the data showing the financial success of the enterprise which netted \$243.10 for the library fund.

It will be remembered that the pupils of the various rooms were given tickets to sell previous to the entertainments, as it was a matter in which they all had a personal interest, and their efforts were productive of great results. Most of the children are entitled to praise for their work but the seven who achieved the most notable results, and who rank in the order named were: Donald DeWitt, Charles Loraine, Clarence Thode, Maurice O'Neil, Bennie Crowley, Victor Pitts and Horace Davis. Each one of course reported to the teacher of his own room so their sales are included in the following list showing the sales made by the pupils of each room and at the theater door.

Miss Taylor, \$28.85; Miss La Chance, \$20.40; Miss Sutton, \$11.45; Miss Grier, \$11.00; Miss Warren, \$10.70; Miss Ford,

IT PLEASES HIM

When the leg o' mutton set before him is not only properly cooked but is tender, juicy, appetizing. Keep your husband in a good humor by serving him with mutton, beef or other meats from the great refrigerating boxes at Hurley's. Not only are their meats of a high grade, but they are cut up with a full knowledge of all the requirements of the kitchen and table.

A CREAMY FOOD

Scott's Emulsion is cod liver oil prepared as a food—not a food like bread or meat, but more like cream; in fact, it is the cream of cod liver oil. At the same time it is a blood-maker, a nerve tonic and a flesh-builder. But principally it is food for tired and weak digestions, for all who are fat-starved and thin. It is pleasant to take; children like it and ask for more.

We'll send you a sample, free

NOTHING TO CONCEAL.

DR. PIERCE TAKES THE PUBLIC INTO HIS FULL CONFIDENCE.

He Gives the Ingredients of the Family Medicines which have Made His Name a Household Word in Countless Homes.

With all the recent talk about patent medicines and the determined effort in certain quarters to cast discredit upon all household remedies which come under that head, the fact remains that some of these medicines are so firmly established in popular favor and confidence, have so proved their worth and value, that all the denunciations of bigots cannot destroy the people's faith in them.

One of the best known of these remedies is Dr. Pierce's Favorite Prescription, a medicine which for years has been accepted by the people as a standard preparation for the cure of those ailments to which women alone are subject, and which has proved to be a certain cure in nine cases out of ten and a sure relief in the other one. Forty years of use by countless numbers of intelligent women is sufficient to indicate what the Favorite Prescription has done and is doing for those women who suffer from dragging pains—from that peculiar lassitude—from any of the ailments derangements of women, which sap the life and strength of women, making them old and worn when they should be and could be young and fresh and vigorous and lovely when life should have and could have all the charms that Nature intends it should have.

Dr. Pierce's Favorite Prescription has wrought this mighty change for thousands upon thousands of women in the last forty years, and is working its miracle of cures to day. Before Dr. Pierce conceived the idea of placing this medicine within easy reach of every suffering woman he had demonstrated its value in his large private practice as a specialist in women's diseases. He knew what it would do for women by actual test. He is a physician of renown, a man of honor, a former member of Congress, one who is highly esteemed in his community. The thought of preying upon the sufferings of his fellows or of deluding them into using a worthless nostrum is as repugnant to him as it can possibly be to any self-constituted guardian of the physical well being of the nation.

There is nothing to conceal about the Favorite Prescription. It is an absolutely pure medicine made of roots and herbs, Nature's own restoratives, compounded after a formula concerning which there can be no question by skilled chemists and by thoroughly scientific processes. Dr. Pierce is perfectly willing to let every one know that his Favorite Prescription contains Blue Cohosh (Caulophyllum Thalictrifolius), Black Cohosh (Cimicifuga Racemosa), Lady's Slipper (Cypripedium Pubescens) and Golden Seal (Hydrastis Canadensis). Every doctor knows that such a prescription is beneficial in the diseases of women and when properly compounded is certain to effect a cure in practically all cases when given a fair trial. Hereafter every bottle of the Favorite Prescription which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., will plainly tell of what the medicine is composed. Thus Dr. Pierce will once more prove to the world his own confidence in the remedy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia and in parts of South America, as a sovereign cure for those diseases which, unchecked, make our women old before their time.

It will be noticed that there is no alcohol in the Favorite Prescription. A great hue and cry has been raised because some patent medicines contain alcohol. Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it he substituted chemically pure glycerine which has wonderful properties for extracting the medicinal principles of roots and herbs and barks and preserving them at their full strength, without any deleterious effect whatever.

Your druggist sells the Favorite Prescription and also the famous alternative and blood purifier, the Golden Medical Discovery. Write to Dr. Pierce about your case. He is a well-qualified physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalide Hotel and Surgical Institute, Buffalo, N. Y., of which he is Chief Consulting Surgeon.
